

Jason Vu

Software Developer

New graduate seeking an opportunity to demonstrate my skills.
Always looking to improve myself and take on new challenges.

EXPERIENCE

Shaftesbury VR, Hamilton, ON — *Student Researcher/Developer*

JANUARY 2019 - APRIL 2019

- Researched and created design documentation on implementing an API for Unity VR Game
- Built a proof-of-concept application to demonstrate Unity web socket library streaming large sets of data to an API endpoint
- Demonstrated time management and prioritization skills through working independently

Public Health Research Institute, Hamilton, ON — *Student Full-Stack .NET Developer*

SEPTEMBER 2018 - DECEMBER 2018

- Using Agile methodology, worked closely with BAs and other developers in scrums
- Developed full-stack ASP.NET web applications for large budget drug research management
- Heavy experience acquired using Git & TFS for source code management
- Optimized SQL queries for extremely large datasets in MSSQL

Mohawk College - Academics, Hamilton, ON — *Web Editor*

APRIL 2018 - AUGUST 2018

- Developed web templates using HTML, CSS, JavaScript, jQuery, and Bootstrap for faculty to easily upload new course content
- Gained communication skills by administering and consulting with faculty when aiding in development of new course content
